

## **RSI** to re-roof another HOA in San Diego

**RSI Roofing** of San Diego has signed a contract with *Summerhill* Home Owners Association to re-roof three of their buildings totaling over 160,000 square feet. **RSI** will remove all of the gravel on the three roofs and then install a *Johns Manville* 60-mil Single-Ply roofing system. The white-reflective single-ply roofing system is in accordance with the California mandated title 24 cool-roof energy requirements. “Our HOA reference list has grown tremendously in past 15 years which has helped our potential clients make better decisions when hiring a roofing contractor to do such large projects,” Sid Scott, Senior Project Manager at **RSI Roofing**.
